McAfee delivers the most robust CASB foundation for customers looking to deliver on their Zero Trust and SASE security roadmaps

SAN JOSE, Calif.--(BUSINESS WIRE)--May 3, 2021-- McAfee Corp. (Nasdaq: MCFE), the device-to-cloud cybersecurity company, today announced it has received 94 out of 100 against Gartner's 480-point Solution in the 2021 Gartner Solution Scorecard for Cloud Access Security Brokers (CASB). The Scorecard, provided independently to every major CASB vendor, is based on an evaluation framework addressing the current and future needs of its customers—rating McAfee MVISION Cloud as meeting 97 percent of its Required Criteria across eleven areas including architecture and management, as well as functions such as data security, threat protection and Cloud Security Posture Management (CSPM).

A complimentary copy of McAfee's Scorecard, which showcases the key findings, is available on the [McAfee Web site](#).

"We're thrilled to be the only CASB product with a score of 94," said Anand Ramanathan, vice president of product management, McAfee. "McAfee has always offered industry-leading CASB capabilities, and as part of McAfee Unified Cloud Edge platform, provides a comprehensive converged approach to security within the SASE framework. This gives our customers the ability to dramatically reduce the costs and complexity associated with enterprise security, while enabling maximum business agility from the cloud."

The MVISION Cloud family includes a growing collection of cloud security products across several categories, including CASB, Secure Web Gateway (SWG) and Data Loss Prevention (DLP). In comparison to other vendors in the Scorecard, McAfee stood out in terms of its API Integration, Data Loss Prevention, Adaptive Access Control, Threat Protection, CSPM and MITRE ATT&CK framework integration.

In addition to receiving such high score in the 2021 Gartner Solution Scorecard for CASBs, McAfee has also been positioned as a [Leader](#) in the Gartner "Magic Quadrant for Cloud Access Security Brokers" for every one of the four years the report has been published.
